February 5<sup>th</sup>, 2015

Dear Jim,

The *Harrison Mills Regional Association (HMRA)*, a registered Non Profit Society has been an active participant in the *Harrison Salmon Stronghold* planning part of the Harrison River community who are committed to environmental sustainability since 2011.

We are interested (among other community concerns) in the conservation and stewardship of our local watershed, the salmon habitats, public education and promoting lifestyles and activities that will ensure that this internationally-significant environment is conserved for future generations.

Our organization has been particularly involved in branding Harrison Mills and would support the development of a Harrison Salmon Habitat program that will ensure

- Guide ecologically sustainable living and Eco-tourism
- Take into consideration competing interests in an open and consultative manner

So with this in mind we would like to provide our support for the development of a *Harrison River Habitat Program* as proposed for the *Harrison Salmon Stronghold Council* to the *Pacific Salmon Foundation*.

Al Roberts

President
