

HARRISON MILLS REGIONAL ASSOCIATION - "UNITING THE COMMUNITY FOR A BETTER LIFESTYLE"

Spring 2012 Newsletter

Hello everyone and welcome to this Spring Edition newsletter coming to you via our new website.

What's new?

As mentioned, we have our website operational and we continue to make small changes to keep the newsletter interesting and informative. We welcome your comments regarding our site or any of the content past, present or future.

We have within our association, a group of volunteers who are being trained to be part of a team that will ensure that all parts of the Fraser Valley will continue to have essential services in the aftermath of a natural disaster.

We are encouraged that Telus has plans to investigate improvement of cell phone services in this area. We are aware of their construction schedule and their objectives for potential expansion on Mt. Woodside. We will keep you informed as news is received.

Since moving to this area, most of us have experienced some confusion regarding the correct postal address. HMRA requested an independent Postal Code for Harrison Mills to minimize this confusion. Canada Post advised that no changes in Postal Codes were planned for Harrison Mills. Correspondence with political representatives and/or a petition may be future possibilities to aid in a

solution. We participated in the Harrison Mills Community Club garage sale in mid-April where we raised several hundred dollars on all donated material. Thank you to all who donated material or their time toward the success of this sale. Save your saleable items as there is a rumor another sale will be held in late summer.

We have established a link on our website with the *Fraser Valley Bald Eagle Festival* as we share common concerns regarding Wildlife Management.

We have once again applied to the FVRD for a grant to help us with some of our start up costs. The application is pending and the results will be fully discussed when available.

We are attempting to increase both our regular members and also our corporate members in the community and all directors and members are encouraged to help us with this objective. A gentle reminder to those who may not have sent in their 2012, \$5 membership, they are now due and will be gratefully received.

Be safe, enjoy your summer and until we meet again,

William Wrinch
Director/Website
